### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is in response to amendment filed on October 19, 2007.
2. Applicant's amendment to claims, by cancelling and adding new claims, changes the scope and therefore, arguments are moot.

### ***Election/Restrictions***

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

The species are independent or distinct as follow:

**Species I:** Claims 10, 14 and 24 – 26, drawn to determining at least one geographic area served by each of a plurality of receiver units for distributing national content to the plurality of receiver units and to generate local content, wherein the central system instructs the receiver units to generate local content that includes a unique ID associated with the receiver unit providing the local content; and each of a subset of the end viewers served by the receiver units communicate the unique ID that was displayed and the geographic area where the unique ID was displayed to the central system and the central system determines at least one geographic areas served by each of the receiver units by associating the unique ID for each receiver unit with the geographic areas identified in the communications from the subset of the end viewers having the same unique ID.

**Species II:** Claims 21, 2, 5, 6, 22 and 23, drawn to determining at least one geographic area served by each of a plurality of receiver units wherein displaying the unique ID that identifies the receiver unit to a plurality of end viewers served by the receiver unit so that the ID is displayed on a television to each of the end viewers; each end viewer communicate information including the ID displayed to the end viewer and the geographic area where the ID was displayed to a central system; and identifying at least one geographic area served by the receiver unit having the particular ID.

**Species III:** Claims 27, 17, 18 and 28, drawn to determining at least one end user characteristic associated with a plurality of end users served by a distribution device wherein each end user within a subset of the end users to communicate information including the unique ID that was communicated to the end user and at least one end user characteristic which characterizes the end user to a central system.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations

of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 (a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
